Notes:

1. The values listed under the DLS columns [C-D-E] are from the Division of Legislative Services website.
2. The DLS values are based upon the two question census format: one for Hispanic Origin and one for Race.
3. The values listed under the DOJ columns [F-G-H] are provided by the Maptitude for Redistricting software.
4. The DOJ values are based upon a combination of the two questions to eliminate the double counting of persons.
5. Both sets of values may be calculated from the counts identified in the 2010 Census Counts exhibit.
6. The DLS and DOJ Black VAP values are the result of adding the two succeeding columns for Black and Black+White.
7. For convenience and consistency the DLS and DOJ Black VAP values are rounded to one decimal point.
8. The Net% column [I] subtracts the DOJ value [F] from the DLS value [C].

100	63,027	27.6%	27.29%	0.30%	27.2%	26.90%	0.29%	0.4%

Notes:

1 The values listed under the DLS columns [C-D-E] are from the Division of Legislative Services website.

2 The DLS values are based upon the two question census format: one for Hispanic Origin and one for Race.

3 The values listed under the DOJ columns [F-G-H] are provided by the Maptitude for Redistricting software.

4 The DOJ values are based upon a combination of the two questions to eliminate the double counting of persons.

5 Both sets of values may be calculated from the counts identified in the 2010 Census Counts exhibit.

6 The DLS and DOJ Black VAP values are the result of adding the two succeeding columns for Black and Black+White.

7 For convenience and consistency the DLS and DOJ Black VAP values are rounded to one decimal point.

8 The Net% column [I] subtracts the DOJ value [F] from the DLS value [C].

County Subdivision Outline Map Legend and County and Independent City Location Index

Map Legend

TAMA — American Indian Reservation (State)

Lumbee — State Designated American Indian Statistical Area

State

ERIE — County or Independent City[1]

Minor — County Subdivision[1]

Incorp Place — Incorporated Place[1]

Cnsus — Census Designated Place[1]

Lake or Pd — Large River, Lake, Water Body, or Shoreline

A fishhook joins contiguous and/or discontiguous parts of the same geographic entity

[1] All lakes and places have codes so that the data is consistent with a particular county subdivision. The county subdivision is named only if it differs from the name of the place. A "1" following a place name indicates that the place is an independent place or independent city. An independent place is not part of any county subdivision and thus serves as the equivalent of a single county subdivision. An independent city is not part of any county or legal county subdivision and thus serves as the equivalent of a county and its legal county subdivision. The name for the county subdivision or place that is the equivalent of a county and its legal county subdivision is shown on the map and in the list of the places and county subdivisions on this map.

Note: All legal boundaries and names are as of January 1, 2000. When a state, county, and/or county subdivision boundaries coincide, the map shows the boundary symbol for the highest level geographic entities. The county boundary is always shown. Where a county subdivision boundary name does not appear on the map, the map does not show the place boundary portion. Any geographic entity name may include all or some portion of the entity extends beyond the limits of the map and is therefore cut by the page, so if multiple discontinuous pieces of the entity have been displayed on the page, a geographic entity name may be used. Thus, if any discontinuous piece is not large enough to be clearly and correctly labeled. The boundaries shown on this map are for Census Bureau statistical data collection and tabulation purposes only. Their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights of ownership or entitlement.

Map Sections

County and Independent City Location Index

This list presents the reference coordinates for each county and independent city on the county subdivision outline map. Map section numbers refer to the county subdivision outline maps only.

TABLE 19
STATE OF VIRGINIA
1991 HOUSE OF DELEGATES PLAN
Districts with Minor River Crossing w/o Roads

Districts are: 21, 62, 64, 72, 76, 77, 79, 82, 90, 91, 98 and 100.

District 100 crosses Chesapeake Bay from East to West.

Districts 90 and 98 have two such crossings.

Appendix Material: District Maps for the Benchmark Plan (2010) and the Enacted Plan (2011)

Notes:

1) All maps are from the Virginia Division of Legislative Services (DLS) http://redistricting.dls.virginia.gov/2010/DistrictMaps.aspx

2) The map sets are comparable in a general sense but were clearly prepared independently and illustrate different features.

3) Most maps are landscape (horizontal) in format but in some cases either one or both of the maps are portrait (vertical).

4) Maps are arranged in district order, 1to 100, with the map for the Benchmark Plan first and then the map for the Enacted Plan.

5) Note that in a few instances the district numbers either changed with respect to incumbents and/or were moved from one part of the state to another. Districts 2, 10, and 87 were reassigned to the northern area of the state.

6) Printing this page in duplex mode will preserve the facing aspect of the maps with 2010 on the left and 2011 map on the right.
